Graduation rates include all students attempting at least 12 hours, are "to date" for each cohort, and are accurate as of July 17, 2018.

Because IPEDS allows for 150% of normal time to complete, the figures reported for '13 and '14 will likely increase slightly during the next 12-24 months.

Rates for '15 and '16 are conservative, forward-looking projections based on year over year completion rates for those students.
